PROFILE SUMMARY

A proficient software developer with **1 year of internship experience and 2 years of freelancing** in **Java, JavaScript, and its frameworks like react js, next js, node js**. Demonstrated expertise in application development and integration at **Paytm, Helpy Moto, and Webknot Technologies**.

TECHNICAL SKILLS

Primary: Javascript, Typescript, React js Next js, Express js ,Node js, PHP, Linux , Java, SpringBoot
Additional : MySQL, MongoDB, Kafka, Redis, RabbitMQ, Git, Docker, Kubernetes, AWS, Github, Linux, HTML, CSS, Tailwind, RestAPI

CORE COMPETENCIES

Software Development Life Cycle (SDLC), Data Structures and Algorithms (DSA), Object Oriented Programing (OOP), Debugging, Restful API, Test Driven Development (TDD), Microservice design
Soft skills : Problem-solving, detail-oriented, critical thinking, collaborative, team player, leadership, innovative, reliable

WORK EXPERIENCE

- SDE Intern** Jan 2024 – Apr 2024
Paytm, One 97 Communication Private Limited Noida, India
- Developed REST API's for a web based applications using **React and Node js technology** for the IT Asset Management (ITAM) project
 - Worked on the backend development of the IPay project, utilizing Java, Spring Boot, Redis, Kafka, MySQL and **migrate the data and contributed in the API documentation and wrote test cases of the 8 microservices.**
- Full stack Developer Intern** Jun 2023 – Dec 2023
Helpy Moto (startup) Delhi, India
- implemented new features and enhancements to existing applications, resulting in enhancement of **performance by 5 times and increased customer satisfaction.**
 - Designed and developed various algorithms for Location hashing and real time provider finding applications like Ola/Uber.
- Software Developer, Intern** May 2022 – Oct 2022
Webknot Technologies (startup) Remote
- Integrated third-party API's to extend application functionality and provide seamless user experiences, adhering to security and data privacy standards
 - Utilized a range of technologies, including Flutter, React js, Typescript and Python, to build the application.

ACADEMIC PROJECTS

- Unibites (Own StartUP Project)** | *React.js , Node.js , Express.js , MongoDB , Git, Figma* Live Link
- Crafted Unibites dashboards for tenants, owners, and admins, streamlining bookings, properties, and accounts.
 - Conducted user research, implemented role-based access control, and followed Agile methodology to develop Unibites effectively.
 - Operated the project live locally, earning INR 25,000 in three months before selling it for INR 30,000.
- Bharat Bank Backend** | *Java ,spring boot , maven ,spring mvc* Github Link
- Implemented a comprehensive set of banking features, including account management, funds transfers, deposits, withdrawals, and mobile banking, showcasing a deep understanding of financial systems and user requirements.

EDUCATION

Arya College of Engineering and IT Jaipur, India
Bachelor of Technology in Computer Science and Engineering [cgpa - 8.53] Aug. 2020 – May 2024

ACHIEVEMENTS

Prepsat Hiring Jobathon 2023 - Ranked 474 out of 90678
Ninja Hire 2.0 - Ranked 154th and Scored 288/340
RHCSA Certified - Certificate Id : 230-087-397
